with Oxygen - \$135.00
with Microdermabrasion - \$150.00
with TNS - \$195.00

Custom Facial - \$150.00

Your esthetician picks the right treatment for your needs.

Deluxe Facial - \$175.00

Custom Facial with added steps and layers

HydraFacial™ - \$225.00

Patented technology to cleanse, extract, and hydrate. HydraFacial™ super serums are made with nourishing ingredients that create an instantly gratifying glow.

+ Platinum - \$325.00

+ Booster - \$275.00

Illuminate Facial - \$225.00

Mini Facial - \$65.00

30 minute facial with extractions, exfoliations and masking

Post Laser Facial - \$65.00

Teen Facial - \$65.00

Dermablade - \$65.00

An exfoliating treatment that involves gently scraping the surface of your skin with a surgical scalpel to remove dead skin and peach fuzz

Microdermabrasion - \$80.00

A non-invasive procedure that uses tiny crystals or diamond tip exfoliation to help remove the superficial layer of dead skin cells

Peels

A chemical solution is applied to the skin that causes it to exfoliate and eventually peel off. The new, regenerated skin is usually smoother, brighter, and less wrinkled than the old skin. Your esthetician can determine the best peel for you!

SkinMedica® Rejuvenize (medium) - \$260.00

SkinMedica® Vitalize (medium) - \$225.00

JUVÉDERM VOLBELLA® Small - \$500.00

JUVÉDERM VOLUMA™ XC - \$850.00

PRP Injections - Ask Your Provider

Platelet-Rich Plasma (PRP) is using your own platelets, which is a natural growth-factor, to repair and regenerate new tissue.

Skin Resurfacing

DermaFrac - \$200.00

A roller with super fine needles gently puncture the top layers of skin and create a microchannel that allows a peptide solution to simultaneously penetrate the skin leaving you with plump, glowing, younger looking skin.

CIT Microneedling - \$275.00

A minimally-invasive skin rejuvenation treatment designed to improve the appearance of fine lines and wrinkles as well as scars on the face and body.

Vampire Facial® - \$750.00

First, the provider (1) isolates growth factors from the patient's blood. Then (2), the provider uses a micro-needling device to create multiple micro-punctures, driving the growth factors into the skin. Lastly (3), the provider paints the growth factors onto the micro-punctures so that the growth factors soak into the tissue for further stimulation of tightening and skin rejuvenation.

Erbium - Package of 3 - \$1800

Erbium laser skin resurfacing precisely ablates the outermost layer of the skin to reveal the underlying skin that is smoother and younger looking. Can be combined with other services.

Skin Rejuvenation

IPL (Intense Pulsed Light or "Photofacial")

An IPL treatment uses the power of broadband light to improve the appearance of sun spots, rosacea, age spots, and skin texture. The treatment can also be used for hair removal, photo rejuvenation, as well as to alleviate dermal diseases like acne.

Face/neck - \$450.00 Full Face - \$350.00 Q-Switch - \$150.00

Non-Surgical FaceLift

Scarlet SRF

Microneedling radio frequency technology that is FDA approved for skin tightening and lifting. Frequent treatments can help wrinkles, crepiness, stretch marks, and some scarring. It can help prevent the need for early face and neck lifting.

Face/Neck/Chest- \$850.00 Hands/Arms - \$750.00 Full Body Available

Agnes RF - \$4500.00

Thinking of getting a facelift? This Injectable Radio Frequency treatment is a surgery alternative using specially designed needles that target deep, medium or superficial lines. The energy causes a localized injury that heals very quickly and keeps the surface intact. The heat shrinks or destroys the sebaceous glands, leading to smaller pores and reduced acne. We can also improve the fat accumulation around the eyes and define the jawline and chin.

with PRP - \$4800.00

Venus Tribella™ - \$1050.00

TriBella™ three-in-one total facial treatment combines photofacial, anti-aging, and skin resurfacing to improve skin tone, elasticity, and texture quickly and effectively.

Venus Legacy™

The highly advanced wrinkle reduction and skin tightening treatment is comfortable with ZERO downtime using Radio Frequency technology that is safe for ALL skin types.

Face (30 Minute) - \$250

Face/Neck (60 Minute) - \$350

Skin Trilogly - Ask Your Provider

A three part treatment including Micro-needling, Erbium, and PRP.

This tightening, rejuvenating, resurfacing, and DNA repair all-in-one service doubles your results with half the downtime!

Body Treatments

Coolsculpting®

FDA cleared CoolSculpting® fat-freezing technology is a unique non-surgical, scientifically proven way to reduce pockets of fat in trouble spots such as the abdomen, flanks or under the chin in as little as one session. Up to 20-25% reduction in fat layer thickness after a single session. Results are typically seen 2-3 months or more after treatment.

Schedule your Consultation with a Coolsculpting Graduate!

Cooltone™

CoolTone is a FDA cleared, noninvasive body contouring treatment that uses Magnetic Muscle Stimulation (MMS) technology to strengthen, tone, and firm the muscles of the abdomen, buttocks, and thighs.

Schedule your Consultation with a Cooltone Graduate!

Venus Legacy™

A non-invasive and virtually pain-free solution for challenging body aesthetic needs, such as body contouring, skin tightening, and cellulite reduction. Treatments are comfortable and relaxing, with no downtime using RF technology that is safe for all skin types.

Body (30 Minute) - \$300

Body (60 Minute) - \$450

Viveve® - \$3000.00

Viveve® is the breakthrough treatment used to improve women's lives through intimate wellness in ONE treatment. There are many changes that women's bodies go through throughout her lifetime, like the skin, collagen production slows down. These changes include the decline of the vaginal lining. When collagen fibers decrease, the walls in the vagina lose their tautness. Pregnancy, childbirth, age, and genetic disposition can make the laxity and bladder leakage more pronounced. Talk to your provider today. Viveve® treatment may cause increased orgasms!

IPL (Intense Pulsed Light) for Body

An IPL treatment uses the power of broadband light to improve the appearance of sun spots, rosacea, age spots, and skin texture. The treatment can be used for hair removal, photo rejuvenation, as well as to alleviate dermal diseases like acne.

Chest - \$300.00

Neck/Chest - \$350.00

Hands - \$150.00

Q-Switch Tattoo Removal - Consultation

TCA Body Peel - \$250 Per Area

This innovative, self-neutralizing TCA body peel contains a powerful five acid complex to address everything from dark spots to body acne. Safe for sensitive skin and eczema, natural exfoliating acids like lactic and salicylic remove dead skin, soften keratin bumps, and eradicate acne-causing bacteria. The TCA Multi-Acid body peel does not need to be rinsed off. Great for legs, chest, arms, back, etc. Each leg and arm are considered one area.

Laser Hair Removal

The laser emits a light that is absorbed by the pigment (melanin) in the hair. The light energy is converted to heat, which damages the hair follicles that produce hairs. This damage inhibits or delays future hair growth, which means less time shaving and worrying about unwanted body hair. Multiple treatments will be needed.
